Fire Prevention Week October 9-15th, 2022

"Fire Won't Wait Plan Your Escape"

According to the National Fire Protection Agency, this October represents the 100th anniversary of Fire Prevention Week, the nation's longest-running public health observance on record.

- * Make sure your home escape plan meets the needs of all your family members, including those with sensory or physical disabilities.
- * Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level of your home. Smoke alarms should be interconnected so when one sounds, they all sound.
- * Know at least two ways out of every room, if possible. Make sure all doors and windows open easily.
- * Have an outside meeting place a safe distance from your home where everyone should meet.
- * Practice your home fire drill at least twice a year with everyone in the household, including guests. Practice at least once during the day and at night.

To learn more about Fire Prevention Week, visit www.nfpa.org/fpw.
