

FLOODPLAIN DEVELOPMENT PERMIT APPLICATION

Fee: \$200.00 Receipt# _____ Date _____ Floodplain Permit Number: _____ Building Permit: _____
--

This form is used for any manmade change to improved or unimproved real estate including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations, or storage equipment or materials. Developer must obtain all other necessary federal, state or local permits (e.g. Corps of Engineers 404 permit, Levee District, etc.) before this permit can be issued.

Street Address _____ Suite _____

Lot _____ Block _____ Subdivision _____

Type & Use of Development _____ Fill Only

COST OF DEVELOPMENT Pre-improvement Value of Structure (from a qualified source) Complete only if modifying an existing structure
 \$ _____ \$ _____

If the development is in a flood plain, the following shall apply. This permit is issued with the condition that the lowest floor (including basement floor) of any new or substantially improved residential building will be elevated at least one foot above the base flood elevation. If the proposed development is a non-residential building, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved non-residential building will be elevated or flood proofed at least one foot above the base flood elevation. The developer/owner will provide certification by a registered engineer, architect or land surveyor of the "as-built" lowest floor elevation (including basement) or flood proofed elevation of any new or substantially improved building covered by this permit.

Owner	Applicant's Name
Architect/Engineer	Applicant's Phone #
Surveyor	Applicant's Address
Date	Applicant's Signature

BUILDING & SAFETY OFFICE USE ONLY

YES NO
 Is the development in an identified floodplain? If yes complete the following:
 Elevation of the base (100-Year) flood _____ ft. MSL / NGVD 29 / NGVD 88
 Elevation/Flood Proofing Requirement _____ ft. MSL / NGVD 29 / NGVD 88 (lowest floor including basement)

Is the development in a designated floodway?
 YES New structures for human habitation are prohibited. For any other floodway development must provide certification by a registered professional engineer that the development would result in no increase along the floodway water surface profile.
 NO If the floodway has not been designated, the developer may be required to submit hydraulic data demonstrating that the proposed development will not increase flood heights more than one foot at any location.

YES NO
 Development is in the New Growth Area?
 Minimum flood corridor protection required?
 Development is a substantial improvement?
 Elevation Certificate required?
 Flood Proofing Certificate required?
 Wet flood Proofing required?
